In case of skin contact
Wash thoroughly with water and soap.

In case of eye contact
Rinse well with plenty of water for at least 15 minutes.

Ingestion
Do not make an unconscious person vomit or swallow anything. Rinse the mouth thoroughly with water.
5. **FIRE-FIGHTING MEASURES**

**Extinguishing media**
Carbon dioxide, dry powder.

**Special hazards arising from the substance**
Harmful/toxic vapours, carbon oxides may be released during the fire.

**Advise for fire-fighters**
Wear an autonomous breathing apparatus and suitable protection clothing against chemical agents.

6. **ACCIDENTAL RELEASE MEASURES**

**Personal precautions**
Use personal protective equipment. Evacuate the personnel from the contaminated zone. Ensure adequate ventilation.

**Environmental precautions**
Keeping away from drains, surface and ground waters.

**Methods and materials for containment and cleaning up**
Clean up without creating dust and place in adapted and sealed containers for elimination. Wash the contaminated area with water and soap. Confining washing water and dispose of it complying with the local regulations. After cleaning, quickly eliminate traces of water with a product absorbing liquids (for example: sand, sawdust, universal binder, Kieselguhr).

7. **HANDLING AND STORAGE**

**Precautions for safe handling**
Avoid formation of dust. Avoid contact with skin and eyes. During handling, wear suitable personal protective equipment (see section 8). Follow the normal measures for preventive fire protection.
