4. FIRST AID MEASURES

#### Inhalation

In case of inhalation, move the victim to fresh air. If breathing is difficult, put the victim on oxygen. If breathing stops, carry out artificial respiration.

#### In case of skin contact

Wash thoroughly with water and soap.

#### In case of eye contact

Rinse well with plenty of water for at least 15 minutes.

#### Ingestion

Do not make an unconscious person vomit or swallow anything. Rinse the mouth thoroughly with water.
5. FIRE-FIGHTING MEASURES

Extinguishing media
Carbon dioxide, dry powder.

Special hazards arising from the substance
Harmful/toxic vapours, carbon oxides may be released during the fire.

Advice for fire-fighters
Wear an autonomous breathing apparatus and suitable protection clothing against chemical agents.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Use personal protective equipment. Evacuate the personnel from the contaminated zone. Ensure adequate ventilation.

Environmental precautions
Keeping away from drains, surface and ground waters.

Methods and materials for containment and cleaning up
Clean up without creating dust and place in adapted and sealed containers for elimination. Wash the contaminated area with water and soap. Conform washing water and dispose of it complying with the local regulations. After cleaning, quickly eliminate traces of water with a product absorbing liquids (for example: sand, sawdust, universal binder, Kieselguhr).
